#### Indications:

- A. Real-time consultation on toxic severity of exposure/inhalation/ingestion/snakebites.
- B. Real-time consultation regarding no/minimal toxicity exposures for patient follow-up contact and self-treatment advice.
- C. Real-time consultation regarding needed hospital resources for patient toxicity.
- D. Identification of pills (using imprint letters/numbers on pills).
- E. Product ingredient identification and toxic severity potential.

#### Contraindications:

None

#### Technique:

To contact the Oklahoma Poison Control Center in Oklahoma City:

**Healthcare Professional Access Number:  
1-877-271-6998**

When calling, identify yourself by name, EMS certification level, and agency/apparatus identification. Have as much patient information and substance/exposure/snake information possible readily available to share with the poison center specialist.

The University of Oklahoma College of Pharmacy administers all operations of the Oklahoma Poison Control Center in cooperation with The Children's Hospital at OU Medical Center.

Calls are answered 24 hours a day by pharmacists and nurses intensively trained in clinical toxicology and designated as specialists in poison information.
