---

To all EMS personnel-

The Office of the Medical Director, and Dr. Goodloe specifically, are continuing monitoring hourly updated information regarding the coronavirus originating from a market in Wuhan, China in the past several weeks, including the growth of confirmed illnesses from this specific coronavirus.

As of Wednesday afternoon [1300 hrs Central Time](#), no specific precautions for our EMS system beyond standard respiratory illness precautions are indicated. As communicated last week, this may change and we will assuredly advise in a timely manner if it does.

We are open to any specific questions if you have them.

Dr. Goodloe

Thank you!  
Kimberly Hale
