#### Specialty Hospitals, Healthcare Facilities, and Additional Service Capabilities

|  |  |
|--|--|
| <b>Veterans Administration Hospital OKC</b>                                | Predominately a medical and surgical facility for the veteran population. The Veterans Administration Hospital is capable of managing patients with complex medical illnesses and non-Priority 1 traumatic injuries.   |
| <b>Bone and Joint Hospital OKC</b>   | Predominately an orthopedic referral facility; Level IV Trauma Center  |
| <b>Oklahoma Heart Hospital (North &amp; South Campus) OKC</b>              | Predominately a medical and surgical facility for Priority I and II assigned and unassigned patients with cardiac related symptoms.  |
| <b>OU Medical Center, (Dean McGee Eye Institute) OKC</b>                   | OUMC is affiliated with Dean McGee Eye Institute. Patients with isolated ocular trauma with loss of vision, change in the appearance of the eye, or severe ocular pain should be transported to OUMC Presbyterian Tower for most expeditious access to ocular services.  |
| <b>OU Medical Center, OKC</b>  | Labor and Delivery Services should only receive pregnant women with an obstetrical complaint and a gestational period greater than 20 weeks.   |
| <b>McBride Clinic Orthopedic Hospital OKC</b>                              | Predominately an orthopedic referral facility; Level IV Trauma Center  |
| <b>Level I Cardiac Arrest Center</b>                                       | Cardiac intervention capabilities including a Cardiac Cath Lab and an interventional cardiologist available 24 hours a day, seven days a week; a therapeutic hypothermia method to cool the patient for at least 12 hours after a cardiac arrest.  |
| <b>Center for Orthopedic Reconstruction &amp; Excellence (CORE), Jenks</b> | Predominately an orthopedic referral facility that should only receive surgical related patients with a chief complaint related to a scheduled surgery at CORE within the next 7 days or a surgery that was performed at CORE within the past 30 days. The patient's surgeon (or the call coverage surgeon) must be contacted and agree to accept the patient at CORE's "Emergency Department" prior to EMSA transport. The patient and/or patient representative (eg. family) has the responsibility to provide the treating EMS personnel the contact number for the surgeon/physician at CORE. The EMSA Communications Center will attempt to contact that surgeon/physician at CORE on a recorded line. If no answer from the surgeon/physician at CORE within 10 (TEN) minutes of attempted notification, an alternate destination shall be selected to promote efficient scene time.   |
| <b>Oklahoma Surgical Hospital (OSH) Tulsa</b>                              | Predominately a surgical referral facility that should only receive surgical related patients with a chief complaint related to a scheduled surgery at OSH within the next 7 days or a surgery that was performed at OSH within the past 30 days. The patient's surgeon (or the call coverage specialist partner) must be contacted and agree to accept the patient at OSH's "Emergency Department" prior to EMSA transport. The patient and/or patient representative (eg. family) has the responsibility to provide the treating EMS personnel the contact number for the surgeon/physician at OSH. The EMSA Communications Center will attempt to contact that surgeon/physician at OSH on a recorded line. If no answer from the surgeon/physician at OSH within 10 (TEN) minutes of attempted notification, an alternate destination shall be selected to promote efficient scene time. |

|   |   |
|---|---|
| Tulsa Spine & Specialty Hospital (TSSH) | Predominately an orthopedic & neurosurgical referral facility that should only receive surgical related patients with a chief complaint related to a scheduled surgery at Tulsa Spine & Select Specialty Hospital within the next 7 days or a surgery that was performed at Tulsa Spine & Select Specialty Hospital within the past 30 days. The patient's surgeon (or the call coverage surgeon) must be contacted and agree to accept the patient at Tulsa Spine & Select Specialty Hospital's "Emergency Department" prior to EMSA transport. The patient and/or patient representative (eg. family) has the responsibility to provide the treating EMS personnel the contact number for the surgeon/physician at TSSSH. The EMSA Communications Center will attempt to contact that surgeon/physician at TSSSH on a recorded line. If no answer from the surgeon/physician at TSSSH within 10 (TEN) minutes of attempted notification, an alternate destination shall be selected to promote efficient scene time.  |
| Norman Regional HealthPlex              | Norman Regional HealthPlex has labor and delivery services for patients in labor.   |
| Integris Lakeside Women's Hospital OKC  | Predominately a labor and delivery hospital for assigned patients   |
| St. Anthony Healthplex                  | Typical emergency department capabilities exist, though no post-emergency department care (surgery, cardiac cath, inpatient care) is available on-site. These facilities should be bypassed for a hospital-based emergency department when the patient's symptoms, exam, and/or diagnostics such as 12-lead ECG indicate the patient most likely requires very urgent or emergent intervention by a specialty physician that is hospital-based (eg. cardiac cath, surgery). Examples of typical transports allowed include: minor head trauma with no or brief LOC; MVC or falls with low suspicion for internal injury and normal vital signs; minor isolated/closed orthopedic injury; epistaxis; respiratory infections; dental injury/illness; fever in pediatrics and young adult (without hypotension/suspected sepsis); chest pain in patients less than 35 years of age, without ST elevation or depression on 12-lead ECG, and without coronary disease history; HTN illness; abdominal pain with normal vital signs and suspected non-surgical cause; genitourinary illness (infections, kidney stones, vaginal bleeding non-pregnant), neurological illness (headaches, seizure (non-status) with seizure history), psychiatric illness, allergic reactions, minor burns, dermal rashes, and MCI "green" patients. |

#### Special Considerations

|     |   |
|-----|---|
| *   | <b>Burn Center.</b> Burns associated with Priority I Trauma should be transported to Level I or II Trauma Centers           |
| **  | <b>Pediatric Burn Center.</b> Burns associated with Priority I Trauma should be transported to Level I or II Trauma Centers |
| *** | See comments above for Freestanding EDs   |
